PROFILE

Front-End Web Developer specializing in modern web development using React, Tailwind CSS, and related tools. Experience creating high-performance, responsive interfaces with reusable components and seamless user experiences.

EXPERIENCE

CODO AI INNOVATIONS | FRONT-END DEVELOPER

December 2024 – Present | Remote | Kerala, India

- Develop and maintain responsive web interfaces using modern front-end technologies like React and Tailwind CSS.
- Ensure cross-browser and cross-device compatibility for a consistent and accessible user experience.
- Collaborate with UI/UX designers and back-end engineers to integrate user-facing features and APIs smoothly.
- Debug and resolve front-end issues to improve performance and ensure the reliability of the application.

FREELANCE PROJECTS | FULL-STACK DEVELOPER

October 2024 – Present | Remote

- Build full-stack web applications using React, Tailwind CSS, and Redux for creating responsive and scalable user interfaces.
- Work with Node.js to create REST APIs and manage back-end logic, using MongoDB (via Atlas) and PostgreSQL for data storage.
- Use Firebase for authentication, real-time features, and cloud storage integration where required.
- Deploy applications in Vercel, taking advantage of CI/CD workflows for efficient and automated deployment.
- Continuously learn and apply best practices in full-stack development while working on personal and client-oriented projects.

PROJECTS

ALBEDO EDUCATOR PLATFORM | REACT, TAILWIND CSS, REDUX

2025

- Designed and developed the complete frontend of a large-scale education management platform for Albedo Educator, used by over 8,000+ active users.
- Built 9 fully functional dashboards to handle key operations including user management, batch scheduling, payments, and real-time notifications.
- Implemented a responsive, modern UI using React and Tailwind CSS, ensuring a consistent and accessible experience across all devices.
- Delivered a scalable and maintainable codebase, improving overall performance, usability, and operational efficiency for daily workflows.
